

# Third Israeli Vascular Access Conference | January 16<sup>th</sup>, 2013

Daniel Hotel, Herzlia, Israel

08:00-08:30	Registration, coffee, visit the exhibition	
08:30-09:30 Session I    Chairs: Michael Allon, USA, Yonatan Halevi, ISR		
08:30-08:35	Welcome Introduction	David Shemesh, ISR
Epidemiology		
08:35-08:45	Epidemiology of dialysis patients in Israel	Eli Golan, ISR
08:45-08:55	Why are Catheters Still the Predominant Initial HD Access in Israel?	David Tovbin, ISR
08:55-09:05	Organ donation in Israel	Yonatan Halevi, ISR
Catheters		
09:05-09:15	Management of catheter-related bacteremia	Michael Allon, USA
09:15-09:30	Preservation of central veins and chronic dialysis catheter technologies	Michael Tal, ISR
09:30-10:10 Session II    Chairs: Larry Scher, USA, Anthony Verstandig, ISR		
Vascular access		
09:30-09:40	Vascular access in the lower limbs	Miltos Lazarides, GRC
09:40-09:50	Regional anesthesia for vascular access surgery	Yefim Raichenstein, ISR
Vascular access in elderly - Debate		
09:50-10:00	Catheter is best access for elderly	Allan Bloom, ISR
10:00-10:10	Fistula is best access for everyone, including the elderly	Selcuk Baktiroglu, TUR
10:10-10:40	Coffee break and visit the trade exhibition	
10:40-11:40 Session III    Chairs: Selcuk Baktiroglu, TUR, David Tovbin, ISR		
AV Grafts		
10:40-10:50	When is graft better than fistula?	Michael Allon, USA
10:50-11:00	Basilic vein transposition fistula versus prosthetic graft	Issak Dimitriadis, GRC
11:00-11:10	Early cannulation: a new era for native accesses and grafts – a new flow chart for indications is born	Eric Chemla, GBR
Vascular access monitoring - Debate		
11:10-11:20	Access monitoring – a waste of time	Michael Allon, USA
11:20-11:30	Access monitoring – essential for access and patient survival	David Shemesh, ISR
11:30-12:00	Coffee break and visit the trade exhibition	
12:00-12:30 Session IV    Chairs: Miltos Lazarides, GRC, Daniel Berelowitz, ISR		
Vascular access maintenance		
12:00-12:10	The role of drug eluting balloons in vascular access for hemodialysis	Panagiotis M. Kitrou, GRC
12:00-12:20	The role of stent grafts in vascular access	Anthony Verstandig, ISR
12:20-12:30	The use of stent grafts in central vein stenosis and occlusion	Anthony Verstandig, ISR
12:30-13:50 Session V    Chairs: Eric Chemla, GBR, Ilya Goldin, ISR		
Vascular Access Complications		
12:30-12:40	Ischemic complications of AV access	Larry Scher USA
12:40-12:50	High flow access management	Ilya Goldin, ISR
12:50-13:00	Should Functioning AV Fistulas be Ligated after Renal Transplantation? CON	Larry Scher, USA
13:00-13:10	Should Functioning AV Fistulas be Ligated after Renal Transplantation? PRO	Ruth Rahamimov, ISR
13:10-13:20	Acquired iodine allergy in dialysis patients	Daniel Berelowitz, ISR
13:20-13:30	Innovation in vascular access: an overview of all research trials in our field and their potential impact	Eric Chemla, GBR
13:30 -13:40	Common fatal mistakes of the medical device inventor	Michael Tal, ISR
13:40-13:50	What have we learned today?	Eric Chemla, GBR
13:50-14:35	Lunch and visit the trade exhibition	
14:35-16:00 Parallel Session I: Vascular Access Management (5 min. case presentation session) Chairs: Miltos Lazarides, GRC, Allan Bloom, ISR		
1.	Graft thrombolysis	Uri Rimon, ISR
2.	Surgical revision of thrombosed aneurysm in fistula	Selcuk Baktiroglu, TUR
3.	Radiological management of steal syndrome	Anthony Verstandig, ISR
4.	Recurrent bleeding from puncture site	Jamal Hijazi, ISR
5.	How I place cephalic arch stent grafts	Anthony Verstandig, ISR
6.	Failing new brachial cephalic fistula	Allan Bloom, ISR
7.	Angioplasty for non maturing fistula	Bashar Shamieh, ISR
8.	Endovascular management of extravasation during PTA	Daniel Berelowitz, ISR
9.	Post angioplasty false aneurysm management	Goldin Ilya, ISR
10.	Intra-operative angioplasty combined with AV graft construction	David Shemesh, ISR
14:35-16:00 Parallel Session II: Ultra sound guided puncture. Hands on workshop for dialysis nurses only Moderators: Ilya Goldin, ISR, Ibrahim Zaghal, ISR, Bashar Shamieh, ISR		
Early registration – 20 participants		
14:35-16:00 Parallel Session III: Ultra sound examination of AV access Hands on workshop for physicians only Moderators: David Shemesh, ISR		
Early registration – 10 participants		
16:00	Adjourn
